Skills

I'm a passionate, self-taught full stack developer that enjoys creating robust solutions. I'm good at efficient problem solving and adjusting to environment/stack/requirements changes. I'm fluent in English, TypeScript/JavaScript, PHP and CSS. I'm pretty good in Node, frontend frameworks and Go (currently learning). My personal open source achievement is [this Vue custom directive](#) that gained some traction without any promotion.

Experience

MARCH 2021 - PRESENT

Gravity Global, remote – Full stack developer

- Maintaining good code and work quality in the current project's team as main developer
- Unusual/hard tasks in various technologies, both front and back end
- Improving workflows
- Projects I've worked on were primary websites built with WordPress and recently some web applications. Most notable:
    - Northwestern Media radio stations - rebuilding big legacy project including website, node servers, radio updates and mobile apps
    - Huumans application (Wellonomics before rebrand) - app for employers and employees to track their wellbeing
    - Columbia Threadneedle Investments (merge with BMO) - merging two big financial websites into one

JULY 2017 - JUNE 2021

Press–Service Monitoring Mediów, remote – Media analyst

- Analyzing and summarizing TV, radio and press materials looking for requested keywords
- I've created radio stations schedule scraper
- It taught me fast typing, parsing information quicker and remote work. It has also expanded the way I think as I was confronted with various world views

Education

2017

Politechnika Lubelska, Lublin – Computer science

Unfinished due to personal reasons.

2014 - 2017

I Liceum Ogólnokształcące im. Stanisława Staszica, Lublin

Class with extended curriculum in Mathematics and English.

Certificates

Introduction to Java - Hyperskill - July 2022
